Sommario/riassunto	In the 1990s, the Chinese government launched an unprecedented reform of state enterprises, putting tens of millions of people out of work. This empirically rich study calls on comprehensive surveys and interviews, combining quantitative data with qualitative in its examination of the variation in workers' collective action. Cai

investigates the difference in interests of and options available to workers that reduce their solidarity, as well as the obstacles that prevent their coordination. In addition, and perhaps more importantly, this book explores the Chinese Government's policies and h

Sommario/riassunto	In Why Do Religious Forms Matter?, Pooyan Tamimi Arab reflects on the Early Modern roots and contemporary relevance of a materialist perspective on the politics of religious diversity. Taking as a starting point the insight that religions manifest in myriad sensible forms—in architecture, in images, in the use of objects in rituals, and in distinctive ways of speaking—Tamimi Arab traces to Spinoza the material-religion approach prevalent in anthropology and religious

studies. It is in Locke's political philosophy, however, that forms are tied to toleration—understood as a neutrally applied civil right—which Tamimi Arab discusses through contemporary case studies of mosque construction, amplified calls to prayer, and the right to ritual slaughter. Going beyond the Enlightenment criticism and toleration of religions, the book concludes with an inclusive reading of Rawls's ideal of public reason, which assumes forms of discourse—religious and non-religious—to always be several. Religious forms thus turn out to be indispensable to liberal democracy itself. Pooyan Tamimi Arab is Assistant Professor of religious studies at Utrecht University. He is a board member of the Amsterdam Spinoza Circle and member of the Young Academy of the Royal Netherlands Academy of Arts and Sciences.
