

1. Record Nr.	UNINA9910955348403321
Autore	Schmithusen Franz
Titolo	Entrepreneurship and management in forestry and wood processing : principles of business economics and management processes // Franz Schmithusen. [et al.]
Pubbl/distr/stampa	London ; ; New York : , : Routledge, , 2014
ISBN	1-138-67523-7 1-315-88459-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (528 p.)
Collana	Routledge Explorations in Environmental Economics ; ; 42
Disciplina	634.9068
Soggetti	Forest products industry Forest management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Title; Copyright; Contents; List of figures; List of tables; Notes on the authors; Foreword; Preface; 1 Forestry and the wood products industry; 1.1 Forest distribution and vegetation; 1.1.1 World forests and regions; 1.1.2 European forests; 1.1.3 Wood growth and wood harvesting; 1.1.4 Forest vegetation and tree species; 1.1.5 Development of forest vegetation; 1.1.6 Influence of human settlement; 1.1.7 Private and public forestland ownership; 1.2 Forest resources management; 1.2.1 Renewable natural resources; 1.2.2 Local forest uses; 1.2.3 Early industrial wood uses 1.2.4 Origins of sustainable forestry 1.2.5 Sustainable wood production; 1.2.6 Multifunctional forest management; 1.2.7 Forest ecosystem management; 1.3 Wood-processing industry; 1.3.1 Structure of the sector and development of consumption; 1.3.2 The European forest-based sector; 1.3.3 The sawmilling industry; 1.3.4 The wood-based panel industry; 1.3.5 Secondary wood processing; 1.3.6 The pulp and paper industry; 1.3.7 International trade in wood products; 1.4 Wood energy; 1.4.1 General considerations; 1.4.2 The European context; 1.4.3 Wood sources for energy use; 1.4.4 EU policy framework 1.4.5 Sector-specific use of wood energy 1.4.6 Wood processing co-products and residue; 1.4.7 Post-consumer wood residues; 1.4.8 Wood biomass from land outside forests; 1.5 Annex: Major wood product

groups: world and selected European countries; 1.6 Further reading; 2
Creating added value in companies and enterprises; 2.1 Value-creation
processes; 2.1.1 Producing goods and services; 2.1.2 Creating value
added; 2.1.3 Value chain in wood processing; 2.1.4 Wood-processing
networks; 2.1.5 Environmental benefits and social services; 2.1.6
Cluster analysis in the forest-based sector
2.1.7 Maintaining the natural resource base
2.2 Enterprises and
companies; 2.2.1 System structure, transformation process and legal
form; 2.2.2 Forest enterprises; 2.2.3 Enterprises of the wood-based
sector; 2.2.4 Size and business location; 2.2.5 Horizontal and vertical
cooperation; 2.3 Entrepreneurship; 2.3.1 Innovation - an
entrepreneurial challenge; 2.3.2 Factors of change in the wood-
processing industry; 2.3.3 Human-environment systems interaction
research; 2.4 Further reading; 3 Markets and marketing; 3.1 Markets;
3.1.1 Supply and demand; 3.1.2 Private and public goods
3.1.3 Market forms and market trends
3.1.4 Market life cycles; 3.1.5
Markets for wood-based products; 3.1.6 Customers for wood-based
products; 3.2 Marketing; 3.2.1 Customer needs and marketable
products; 3.2.2 Marketing policies; 3.2.3 Certification; 3.2.4 Marketing
strategies and target markets; 3.2.5 Marketing instruments; 3.2.6
Implementing marketing strategies; 3.3 Further reading; 4
Management, human resources and organisation; 4.1 Management as
an entrepreneurial challenge; 4.1.1 Management systems; 4.1.2
Directive functions and management areas
4.1.3 Decision-making and problem-solving processes

Sommario/riassunto

Forestry has long been in a rather favourable position in offering a valuable raw material source in high demand. However, with rapidly changing end-user demands and cost competitiveness within the forest and wood chain as a whole, the industry is needing to adapt. Explaining entrepreneurial action as part of a chain of comprehensive value-added processes leads to a new perception of forest production and wood processing. This book applies the main concepts of modern managerial science to the world of forestry and is the perfect book for students studying forestry and wood processing, as well
