Sommario/riassunto	An African Athens offers an analysis of a new ecology of rhetoric--the reshaping of a nation into a democracy through rhetorical means. Author Philippe-Joseph Salazar provides a general view of issues as they have taken shape in the apartheid and post-apartheid South African experience, presenting the country as a remarkable stage for playing out the great themes of public deliberation and the rise of postmodern rhetorical democracy. Salazar's intimate vantage point focuses on the striking case of a democracy won at the negotiating table and also won every day in public deliberation. <b
