

1. Record Nr.	UNINA9910449684403321
Autore	Smithells Colin J (Colin James)
Titolo	Smithells metals reference book [[electronic resource] /] / edited by W. F. Gale, T.C. Totemeier
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Elsevier Butterworth-Heinemann, c2004
ISBN	978-0-0805-8096-1 9780080580961 0-08-048096-9
Edizione	[8th ed.]
Descrizione fisica	1 online resource (2072 p.)
Altri autori (Persone)	GaleW. F (William Francis) TotemeierT. C (Terry C.)
Disciplina	669.02/12
Soggetti	Metallurgy Metals Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Cover; Smithells Metals Reference Book; Contents; Preface; Acknowledgements; Disclaimer; Contributors; 1 Related designations; References; 2 Introductory tables and mathematical information; 2.1 Conversion factors; 2.1.1 SI units; Printed form of units and numbers; Heading of columns in tables and labelling of groups; Temperatures; 2.1.2 Temperature scale conversions; 2.2 Mathematical formulae and statistical principles; 2.2.1 Algebra; Identities; Ratio and proportion; Logarithms; The quadratic equation; The cubic equation; 2.2.2 Series and progressions; Numerical series Arithmetic Progression Geometric progression; Taylor's series; Maclaurin's series; Binomial series; Logarithmic series; Exponential series; Trigonometric series; Series for hyperbolic functions; 2.2.3 Trigonometry; Definitions and simple relationships; Radian measure; Compound angles; Properties of triangles; Hyperbolic functions; 2.2.4 Mensuration; Plane figures; Solid figures; 2.2.5 Co-ordinate geometry (two dimensions, rectangular axes); Straight line; Triangle; Circle; Ellipse; Parabola; Hyperbola; 2.2.6 Calculus; Differentials; Integrals; Elementary forms; Differential equations

Equations of the first order  
2.2.7 Introduction to statistics; 2.2.7.1 Introduction and cross-references; 2.2.7.2 Descriptive statistics; Measures of centre; Measures of variability; Histogram; The boxplot; Laws of probabilities; Permutations; Combinations; Random variables and their frequency functions; The binomial PMF; The poisson distribution; Continuous frequency functions; The uniform pdf; The Normal (or Gaussian) distribution  $N(\mu, \sigma^2)$ ; The percentiles of a Normal distribution; The reproductive property of the Normal distribution; The Central Limit Theorem (CLT)  
The Normal approximation to the binomial The exponential pdf; 2.2.7.3 Statistical inference; Properties of point estimators; Sampling distributions of statistics with underlying normal parent populations; Confidence intervals for one parameter of a normal Universe; Confidence intervals for parameters of two normal Universes; 2.2.7.4 Statistical Process Control (SPC); Shewhart control charts for variables; S- and x-charts; Shewhart control chart for fraction nonconforming (The P-chart); Shewhart control chart for number of nonconformities per unit (The u-chart)  
3 General physical and chemical constants  
3.1 Radioactive isotopes and radiation sources; References; 4 X-ray analysis of metallic materials; 4.1 Introduction and cross references; 4.2 Excitation of X-rays; 4.2.1 X-ray wavelengths; 4.3 X-ray techniques; 4.3.1 X-ray diffraction; 4.3.1.1 Experimental methods; 4.3.1.2 Accessory attachments for diffractometers; 4.3.2 Specific applications; 4.3.2.1 Phase identification and quantitative measurements; 4.3.2.2 Determination of retained austenite in steel; 4.3.2.3 X-ray residual stress measurements; Measurement of microstresses  
4.3.2.4 Preferred orientation

---

#### Sommario/riassunto

Smithells is the only single volume work which provides data on all key aspects of metallic materials. Smithells has been in continuous publication for over 50 years. This 8th Edition represents a major revision. Four new chapters have been added for this edition. These focus on:  
\* Non conventional and emerging materials - metallic foams, amorphous metals (including bulk metallic glasses), structural intermetallic compounds and micro/nano-scale materials.  
\* Techniques for the modelling and simulation of metallic materials.  
\* Supporting technologies for the processing

---

2. Record Nr.	UNINA9910792025303321
Autore	Greenfield Susan C
Titolo	Mothering daughters [[electronic resource]] : novels and the politics of family romance : Frances Burney to Jane Austen // Susan C. Greenfield
Pubbl/distr/stampa	Detroit, : Wayne State University Press, 2003
ISBN	0-8143-3828-3
Descrizione fisica	1 online resource (230 p.)
Disciplina	823.50935252
Soggetti	English fiction - Women authors - History and criticism Mothers and daughters in literature Women and literature - Great Britain - History - 18th century Women and literature - Great Britain - History - 19th century English fiction - 18th century - History and criticism English fiction - 19th century - History and criticism Feminist fiction, English - History and criticism Domestic fiction, English - History and criticism Motherhood in literature Mothers in literature Families in literature
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	"The lovely resemblance of her lovely mother": Evelina and later novels -- Gothic mothers and homoerotic desire: incestuous longing in the Italian -- The maternal bosom: sexual difference and custody in the wrongs of woman; or, Maria -- The maternal bosom: sexual and colonial difference in Belinda -- Mother, daughter, and mulatto: women's exchange in Adeline Mowbray -- The riddle of Emma: maternity and the unconscious.

3. Record Nr.	UNINA9910955545403321
Autore	Frayn K. N (Keith N.)
Titolo	Metabolic regulation : a human perspective / / Keith N. Frayn
Pubbl/distr/stampa	Chichester, West Sussex ; ; Malden, MA, : Blackwell, 2010
ISBN	9781444317763 1444317768
Edizione	[3rd ed.]
Descrizione fisica	xii, 371 p. : ill
Disciplina	612.39
Soggetti	Metabolism - Regulation Biological control systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover -- Title Page -- Copyright -- Contents -- Preface -- List of Abbreviations -- 1. The Underlying Principles of Human Metabolism -- 1.1 Metabolic Regulation in Perspective -- 1.2 The Chemistry of Food - and of Bodies -- 1.2.1 Some Important Chemical Concepts -- 1.2.1.1 Polarity -- 1.2.1.2 Osmosis -- 1.2.2 The Chemical Characteristics of Macronutrients -- 1.2.2.1 Carbohydrates -- 1.2.2.2 Fats -- 1.2.2.3 Proteins -- 1.3 Some Physiological Concepts -- 1.3.1 Circulation, Capillaries, Interstitial Fluid -- 1.3.2 Blood, Blood Plasma and Serum -- 1.3.3 Lymph and Lymphatics -- Further Reading -- 2. Cellular Mechanisms Involved in Metabolic Regulation -- 2.1 How is Metabolic Regulation Achieved? -- 2.2 Metabolic Regulation Brought About by the Characteristics of Tissues -- 2.2.1 Movement of Substances Across Membranes -- 2.2.1.1 Glucose Transport -- 2.2.1.2 Amino Acids -- 2.2.1.3 Fatty Acids -- 2.2.1.4 Cholesterol -- 2.2.1.5 Small Polar Molecules -- 2.2.1.6 Water and Glycerol -- 2.3 Hormones and Short-Term Control of Enzyme Activity -- Further Reading -- 3. Digestion and Intestinal Absorption -- 3.1 The Strategy of Digestion -- 3.1.1 Carbohydrates -- 3.1.2 Fats -- 3.1.3 Proteins and Amino Acids -- 3.2 Stages of Digestion -- 3.2.1 The Mouth -- 3.2.2 The Stomach -- 3.2.2.1 General Description -- 3.2.2.2 Regulation of Digestive Processes in the Stomach -- 3.2.2.3 Digestive Processes in the Stomach -- 3.2.3 The Small Intestine -- 3.2.3.1 General Description -- 3.2.3.2

Regulation of Digestive Processes in the Small Intestine -- 3.2.3.3  
Digestive Processes Occurring in the Small Intestine -- 3.2.3.3.1 Starch  
Digestion -- 3.2.3.3.2 Protein Digestion -- 3.2.3.3.3 Fat Digestion --  
3.3 Absorption from the Small Intestine -- 3.3.1 Monosaccharides --  
3.3.2 Amino Acids and Peptides -- 3.3.3 Lipid Absorption -- 3.3.4  
Other Processes Occurring in the Small Intestine.  
3.4 The Large Intestine -- Further Reading -- 4. Longer-Term  
Regulation of Metabolism -- 4.1 Longer-Term Control of Enzyme  
Activity -- 4.2 Hormones and Longer-Term Control of Enzyme Activity --  
4.2.1 Insulin and Control of Gene Expression -- 4.2.2 Steroid and  
Thyroid Hormones -- 4.3 Nutrients and Control of Gene Expression --  
4.3.1 Carbohydrate Responsive Genes -- 4.3.2 Fatty Acids and Gene  
Expression -- 4.3.3 Cholesterol and Gene Expression -- 4.3.4 Amino  
Acids and Gene Expression -- 4.3.5 Regulation of Oxidative  
Metabolism by Gene Expression -- Further Reading -- 5. Organs and  
Tissues -- 5.1 The Liver -- 5.1.1 General Description of the Liver and  
its Anatomy -- 5.1.2 Liver Metabolism -- 5.1.2.1 Carbohydrate  
Metabolism in the Liver -- 5.1.2.1.1 Fed Conditions -- 5.1.2.1.2  
Overnight Fasted Conditions -- 5.1.2.1.3 The Pentose Phosphate  
Pathway -- 5.1.2.2 Fat Metabolism in the Liver -- 5.1.2.2.1 Fatty Acid  
Oxidation -- 5.1.2.2.2 Lipid Synthesis -- 5.1.2.2.3 Longer-Term  
Control of Hepatic Fat Metabolism -- 5.1.2.2.4 Other Roles of the Liver  
in Fat Metabolism -- 5.1.2.3 Amino Acid Metabolism in the Liver -- 5.2  
The Brain -- 5.3 Skeletal Muscle -- 5.3.1 General Description and  
Structure of Skeletal Muscle -- 5.3.2 Metabolism of Skeletal Muscle:  
General Features -- 5.3.3 Routes of ATP Generation in Skeletal Muscle  
-- 5.3.3.1 Glucose Metabolism in Skeletal Muscle -- 5.3.3.2 Fatty Acid  
Metabolism in Skeletal Muscle -- 5.4 The Heart -- 5.5 Adipose Tissue  
-- 5.5.1 White and Brown Adipose Tissue -- 5.5.2 Brown Adipose  
Tissue and the Concept of "Uncoupling" -- 5.5.3 White Adipose Tissue  
Metabolism -- 5.5.3.1 Fat Storage -- 5.5.3.2 Fat Mobilization --  
5.5.3.3 Adipocyte Differentiation and Longer-Term Regulation of Fat  
Storage -- 5.5.3.4 Adipose Tissue as an Endocrine Organ -- 5.6 The  
Kidneys -- 5.6.1 General Description -- 5.6.2 The Scale of Kidney  
Function.  
5.6.3 Energy Metabolism in the Kidney -- 5.7 Endothelial Cells and  
Other Cell Types -- 5.7.1 The Endothelium - A Large Organ Distributed  
Throughout the Body -- 5.7.2 Rapidly Dividing Cells -- 5.7.3  
Macrophages -- Further Reading -- 6. Important Endocrine Organs and  
Hormones -- 6.1 Endocrine Glands and Hormones -- 6.2 The Pancreas  
-- 6.2.1 General Description of the Pancreas and its Anatomy -- 6.2.2  
Insulin -- 6.2.3 Glucagon -- 6.3 The Pituitary Gland -- 6.3.1 Hormones  
of the Anterior Pituitary (Adenohypophysis) -- 6.3.2 Hormones of the  
Posterior Pituitary (Neurohypophysis) -- 6.4 The Thyroid Gland -- 6.5  
The Adrenal Glands -- 6.5.1 The Adrenal Cortex: Cortisol Secretion --  
6.5.2 The Adrenal Medulla, Adrenaline Secretion, and Adrenaline Action  
-- 6.6 "Metabolic Tissues" that Secrete Hormones -- 6.6.1 Adipose  
Tissue -- 6.6.2 Heart -- 6.6.3 Kidney -- 6.6.4 Skeletal Muscle -- 6.6.5  
The Intestine -- Further Reading -- 7. Integration of Carbohydrate, Fat,  
and Protein Metabolism in Normal Daily Life -- 7.1 Carbohydrate  
Metabolism -- 7.1.1 The Postabsorptive State -- 7.1.2 Breakfast --  
7.1.2.1 Carbohydrate Metabolism in the Liver After Breakfast -- 7.1.2.2  
Carbohydrate Metabolism in Other Tissues After Breakfast -- 7.1.2.3  
Disposal of Glucose After a Meal -- 7.2 Fat Metabolism -- 7.2.1 Plasma  
Non-Esterified Fatty Acids -- 7.2.2 Plasma Triacylglycerol -- 7.2.3 The  
Postabsorptive State -- 7.2.4 Breakfast -- 7.2.4.1 Non-Esterified Fatty  
Acid Metabolism After Breakfast -- 7.2.4.2 Triacylglycerol -- 7.3  
Amino Acid and Protein Metabolism -- 7.3.1 General Features -- 7.3.2

Some Particular Aspects of Amino Acid Metabolism -- 7.3.2.1 Essential and Non-Essential Amino Acids, and Other Metabolically Distinct Groups of Amino Acids -- 7.3.2.2 Branched-Chain Amino Acids and Muscle Amino Acid Metabolism -- 7.3.2.3 Alanine and Glutamine.

7.3.3 The Overall Control of Protein Synthesis and Breakdown -- 7.4

Links Between Carbohydrate, Fat, and Amino Acid Metabolism -- 7.4.1 Carbohydrate and Fat Metabolism -- 7.4.1.1 Lipogenesis -- 7.4.1.2 Metabolic Interactions Between Fatty Acids and Glucose: the Glucose-Fatty Acid Cycle -- 7.4.2 Interactions Between Carbohydrate and Amino Acid Metabolism: the Glucose-Alanine Cycle and Gluconeogenesis from Amino Acid -- 7.5 Blood Flow and the Integration of Metabolism -- 7.6

An Integrated View of Metabolism: a Metabolic Diary -- 7.6.1 The Postabsorptive State: Waking Up -- 7.6.2 Breakfast Goes Down -- 7.6.3 Another Meal Follows -- 7.6.4 An Energetic Day -- 7.7 Summary: Metabolic Control in a Physiological Setting -- Further Reading -- 8.

The Nervous System and Metabolism -- 8.1 Outline of the Nervous System as it Relates to Metabolism -- 8.1.1 The Nerve Cell -- 8.1.2 The Wiring Diagram -- 8.2 Basic Physiology of the Nervous System -- 8.2.1 The Brain -- 8.2.1.1 The Hypothalamus -- 8.2.1.2 The Cerebellum and Brainstem -- 8.2.2 The Autonomic Nervous System -- 8.2.2.1 The Sympathetic Nervous System -- 8.2.2.2 The Parasympathetic Nervous System -- 8.2.2.3 The Somatic Nervous System -- 8.2.3 Neurotransmitters and Receptors -- 8.2.3.1 Adrenergic Transmission -- 8.2.3.2 Cholinergic Transmission -- 8.3 Major Effects of Adrenergic Stimulation -- 8.3.1 Stimuli for Activation of the Sympathetic Nervous System and Adrenal Medulla -- 8.3.2 Circulatory Effects of Adrenergic Activation -- 8.3.3 Metabolic Effects of Catecholamines -- 8.3.3.1 Glycogenolysis -- 8.3.3.2 Lipolysis -- 8.3.3.3 Glucose Utilization -- 8.4 Effects of the Autonomic Nervous System on Hormone Secretion -- 8.5 Summary -- Further Reading -- 9. Coping with Some Extreme Situations -- 9.1 Situations in Which the Body Needs to Call on its Fuel Stores -- 9.2 The Body's Fuel Stores -- 9.2.1 Carbohydrate.

9.2.2 Fat -- 9.2.3 Amino Acids -- 9.3 Starvation -- 9.3.1 The Early Phase -- 9.3.2 The Period of Adaptation to Starvation -- 9.3.2.1 Hormonal Changes -- 9.3.2.2 Adaptation of Fatty Acid, Ketone Body, and Glucose Metabolism -- 9.3.2.3 Sparing of Muscle Protein -- 9.3.2.4 Kidney Metabolism -- 9.3.3 The Period of Adapted Starvation -- 9.4 Exercise -- 9.4.1 Types of Exercise -- 9.4.2 Intensity of Exercise -- 9.4.3 Metabolic Regulation During Anaerobic Exercise -- 9.4.4 Metabolic Regulation During Aerobic Exercise -- 9.4.5 Nervous System and Cardiovascular Responses During Aerobic Exercise -- 9.4.6 Other Hormonal Responses During Aerobic Exercise -- 9.4.7 Carbohydrate Metabolism During Endurance Exercise -- 9.4.8 Fat Metabolism During Endurance Exercise -- 9.4.9 The Effects of Training -- Further Reading -- 10. Lipoprotein Metabolism -- 10.1 Introduction to Lipoprotein Metabolism -- 10.2 Outline of the Pathways of Lipoprotein Metabolism -- 10.2.1 Chylomicron Metabolism - the Exogenous Pathway -- 10.2.2 VLDL and LDL Metabolism -- 10.2.2.1 VLDL Metabolism - the Endogenous Pathway -- 10.2.2.2 LDL Metabolism and Regulation of Cellular Cholesterol Content -- 10.2.3 HDL Metabolism -- 10.2.3.1 HDL and Reverse Cholesterol Transport -- 10.2.3.2 Cholesteryl Ester Transfer Protein -- 10.3 Regulation of Lipoprotein Metabolism -- 10.3.1 Insulin and Triacylglycerol Metabolism -- 10.3.2 Relationship Between Plasma Triacylglycerol and HDL-Cholesterol Concentrations -- 10.3.3 Cholesterol Homeostasis -- 10.4 Disturbances of Lipoprotein Metabolism -- 10.4.1 Cholesterol and Atherosclerosis -- 10.4.2 Conditions Leading to Elevation of the Blood Cholesterol Concentration -- 10.4.2.1 Primary Hyperlipoproteinemias -- 10.4.2.2 Secondary

Hyperlipoproteinemas -- 10.4.3 HDL-Cholesterol, Plasma Triacylglycerol, and Coronary Heart Disease -- Further Reading -- 11. Diabetes Mellitus.

### 11.1 Different Types of Diabetes.

#### Sommario/riassunto

The important Third Edition of this successful book conveys a modern and integrated picture of metabolism and metabolic regulation. Explaining difficult concepts with unequalled clarity, author Keith Frayn provides the reader with an essential guide to the subject. Covering topics such as energy balance, body weight regulation and how the body copes with extreme situations, this book illustrates how metabolic regulation allows the human body to adapt to many different conditions. Changes throughout the new edition include: Extensive chapter updates Clear and accessible 2-color diagrams Q&A sections online at [www.wiley.com/go/frayn](http://www.wiley.com/go/frayn) to facilitate learning Frayn has written a book which will continue to be an extremely valuable tool for scientists, practitioners and students working and studying across a broad range of allied health sciences including medicine, biochemistry, nutrition, dietetics, sports science and nursing.
