Sommario/riassunto	From grassroots to global activism, the untold story of the world's first domestic workers' movement. Domestic workers exist on the margins of the world labor market. Maids, nannies, housekeepers, au pairs, and other care workers are most often 'off the books,' working for long hours and low pay. They are not afforded legal protections or benefits such as union membership, health care, vacation days, and retirement

plans. Many women who perform these jobs are migrants, and are oftentimes dependent upon their employers for room and board as well as their immigration status, creating an extremely vulnerable category of workers in the growing informal global economy. Drawing on over a decade's worth of research, Jennifer N. Fish presents the compelling stories of the pioneering women who, while struggling to fight for rights in their own countries, mobilized transnationally to enact change.

Sommario/riassunto

A complete history of alchemy revealing the subject as much more than the attempts in early science of turning base metals into gold or silver, this book goes about intimating the mystical experience underlying hermetic symbolism. It outlines some of the 'secret' inner meanings to alchemy - symbolism, metaphysics, and spirituality. This book contains a universe of information and is worthwhile reading for anyone wanting to know more on this engaging subject. Originally published in 1926.
