Sommario/riassunto

This reissue, initially published in 1989, considers the upsurge of locally-based movements attempting to improve living conditions in Third-World cities throughout the 1980s. The book presents qualitative, comparative research on the dynamics and constraints of these urban social movements, in a cross-cultural framework, using case studies from a variety of Latin American, African and Asian countries. As more democratic-type regimes establish themselves in the Third World, the possibilities for collective organisations and actions increase. Urban social movements therefore are
