Other effects of workplace exposures.S; Index
Sommario/riassunto	Winner of the 2011 BMA book awards: medicine categoryIn the five decades since its first publication, Hunter's Diseases of Occupations has remained the pre-eminent text on diseases caused by work, universally recognized as the most authoritative source of information in the field. It is an important guide for doctors in all disciplines who may encounter occupational diseases in their practice, covering topics as diverse as work and stress, asbsetos-related disease, working at high altitude and major chemical incidents, many of which are highly topic
