Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: Grice on Reasons and Rationality / Richard Warner -- Aspects of reason -- Proem -- I. Reason and Reasoning -- II. Reason and Reasons -- III. Practical and Alethic Reasons: Part I -- IV. Practical and Alethic Reasons: Part II -- V. Some Reflections about Ends and Happiness -- Index.
Sommario/riassunto	Reasons and reasoning were central to the work of Paul Grice, one of the most influential and admired philosophers of the late twentieth century. In the John Locke Lectures that Grice delivered in Oxford at the end of the 1970s, he set out his fundamental thoughts about these topics; Aspects of Reason is the long-awaited publication of those lectures. This immensely rich work, powerfully evocative of the mind of its author, will refresh and illuminate discussions in many areas of contemporary philosophy.
