Sommario/riassunto	In Failure of American and Soviet Cultural Imperialism in German Universities, 1945-1990 Natalia Tsvetkova describes the American and Soviet policies in German universities during the Cold War. In both parts of divided Germany the conservative professorate resisted both the American and Soviet policies of reforms in universities. Whether

these policies can be considered cases of cultural imperialism will be discussed in this book. As well as how and why both American and Soviet policies of the transformation of German universities eventually failed.
