1.	Record Nr.	UNINA9910956479803321
	Autore	Radden Gunter
	Titolo	Cognitive English grammar / / Gunter Radden, Rene Dirven
	Pubbl/distr/stampa	Amsterdam ; ; Philadelphia, : John Benjamins Pub., c2007
	ISBN	9786612152979 9781282152977 1282152971 9789027292339 9027292337
	Edizione	[1st ed.]
	Descrizione fisica	xiii, 374 p. : ill
	Collana	Cognitive linguistics in practice, , 1388-6231 ; ; v. 2
	Altri autori (Persone)	DirvenRene
	Disciplina	415
	Soggetti	English language - Grammar Cognitive grammar
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Cognitive English Grammar -- Editorial page -- Title page -- LCC data -- Table of contents -- Preface -- List of typographical conventions used in the book -- Introduction -- I. The cognitive framework -- Categories in thought and language -- Cognitive operations in thought and language -- From thought to language -- II. Things: Nouns and noun phrases -- Types of things: Nouns -- Grounding things: Reference -- Quantifying things: Quantifiers -- Qualifying things: Modifiers -- III. Situations as temporal units: Aspect, tense and modality -- Situation types: Aspect -- Grounding situations in time: Tense -- Grounding situations in potentiality: Modality -- IV. Situations as relational units: Sentence structure -- Event schemas: Sentence patterns -- Space and extensions of space -- References -- Glossary -- Index -- The series Cognitive Linguistics in Practice.
	Sommario/riassunto	Cognitive English Grammar is designed to be used as a textbook in courses of English and general linguistics. It introduces the reader to cognitive linguistic theory and shows that Cognitive Grammar helps us to gain a better understanding of the grammar of English. The notions of motivation and meaningfulness are central to the approach adopted in the book. In four major parts comprising 12 chapters, Cognitive

English Grammar integrates recent cognitive approaches into one coherent model, allowing the analysis of the most central constructions of English. Part I presents the cognitive framework: conceptual and linguistic categories, their combination in situations, the cognitive operations applied to them, and the organisation of conceptual structures into linguistic constructions. Part II deals with the category of 'things' and their linguistic structuring as nouns and noun phrases. It shows how things are grounded in reality by means of reference, quantified by set and scalar quantifiers, and qualified by modifiers. Part III describes situations as temporal units of various layers: internally, as types of situations; and externally, as located relative to the time of speech and grounded in reality or potentiality. Part IV looks at situations as relational units and their structuring as sentences. Its two chapters are devoted to event schemas and space and metaphorical extensions of space.Cognitive English Grammar offers a wealth of linguistic data and explanations. The didactic quality is guaranteed by the frequent use of definitions and examples, a glossary of the terms used, overviews and chapter summaries, suggestions for further reading, and study questions.
