	Sommario/riassunto	Top down . . . bottom up . . . what works? This book explores development from theperspective of the poor. Who are they? What lives do they live? What matters tothem? And most importantly, what can they do about it?Martin and Mathema debate how people can be given

legitimate control of theirown environment, and how governments can work with them. How do communitiesand conditions drive behavior? What interventions are appropriate and how can weapproach development imaginatively?This is not about usurping governance - but revisiting structures that the develo
