| Sommario/riassunto      | This book is the result of the collective effort of some of the foremost   |

experts and scholars of Chinese law, Asian law, and Chinese economics and carefully examines the relationship between law and China's economic development. Serious inquiries and candid opinions of the contributors have made for stimulating discussion and debate in many controversial areas. This book is likely to result in further research into factors affecting China's economic development, political change, and China's interaction with the international community. The book explores the development of the Chinese
