1. Record Nr.   UNINA9910957267803321

   Autore   Axelsson Owe

   Titolo   Efficient preconditioned solution methods for elliptic partial differential equations / / Owe Axelsson, Janos Karatson, (editors)

   Pubbl/distr/stampa   [United Arab Emirates, : Bentham eBooks, 2011]

   ISBN   9781608052912
                        1608052915

   Edizione   [1st ed.]

   Descrizione fisica   1 online resource (153 p.)

   Altri autori (Persone)   AxelssonO. <1934->
                            KaratsonJ (Janos)

   Soggetti   Differential equations, Elliptic

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Description based upon print version of record.

   Nota di bibliografia   Includes bibliographical references and index.

   Sommario/riassunto   This e-book presents several research areas of elliptical problems solved by differential equations. The mathematical models explained in this e-book have been contributed by experts in the field and can be applied to a wide range of real life examples. Methods explained include pre-conditioned conjugate grid models higher order discretization and finite element mesh generation. This e-book should be a useful reference for scholars and professionals interested in elliptical partial differential equations.
