Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This e-book is devoted to an analysis of progress in electronic government. It contains a series of papers by experts in the field who report on a range of real world e-government projects and associated evaluative studies. These cover the analysis of parliamentary and central government web sites, and a variety of more specialized national and local e-government initiatives, and finally the use of web sites in election campaigns.
