                       Europe; 7. Self-governance in interim settlements; 8. Two steps
                       forward, one step back; 9. From centralized authoritarianism to
                       decentralized democracy; 10. 'Masters of their homelands'; 11. Recent
                       trends in autonomy and state construction; Index

   Sommario/riassunto Conflicts over the rights of self-defined population groups to
                       determine their own destiny within the boundaries of existing states

are among the most violent forms of inter-communal conflict. Many experts agree that autonomy regimes are a useful framework within which competing claims to self-determination can be accommodated. This volume explores and analyses the different options available. The contributors assess the current state of the theory and practice of institutional design for the settlement of self-determination conflicts, and also compare and contrast detailed case studies on
