

1. Record Nr.	UNINA9910957425003321
Titolo	Considerations for viral disease eradication : lessons learned and future strategies : workshop summary / / Stacey Knobler, Joshua Lederberg, and Leslie A. Pray, editors ; Forum on Emerging Infections, Board on Global Health, Institute of Medicine
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, c2002
ISBN	9786610184385 9780309169318 0309169313 9781280184383 1280184388 9780309500890 0309500893
Edizione	[1st ed.]
Descrizione fisica	1 online resource (231 p.)
Altri autori (Persone)	KnoblerStacey LederbergJoshua PrayLeslie A
Disciplina	614.5/75
Soggetti	Virus diseases - Vaccination Virus diseases - Prevention Medical policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Matter -- Contents -- Preface -- 1 Summary and Assessment -- 2 Major Efforts for Disease Eradication -- 3 Biological Challenges to Post-Eradication -- 4 Operational and Institutional Challenges to Post-Eradication -- 5 Medical Intervention and Technological Solutions -- 6 The Challenges to Post-Eradication Outbreaks -- Appendix A Glossary and Acronyms -- APPENDIX B Workshop Agenda The Consequences of Viral Disease Eradication: Addressing Post-Immunization Challenges -- APPENDIX C Forum Member and Speaker Biographies.
Sommario/riassunto	This summary of the Institute of Medicine's February 2001 Forum on Emerging Infections treats issues including eliminating the vaccine-

preventable viral diseases of polio, measles, and rubella still lingering in the "post-eradication" era, and the preparedness of the US health care system for future natural or intentional disease outbreaks. Includes a glossary, workshop agenda, and participants' biographies. Lacks an index. Knobler is the forum's director. Annotation copyrighted by Book News, Inc., Portland, OR
