Hardin -- Northern millenarian fundamentalism in the South, 1900-1950 / B. Dwain Waldrep -- Conclusion : the very civil convictions of Ed Harrell / Beth Barton Schweiger.

Sommario/riassunto

Recovering the Margins of American Religious History, a celebration of the life and work of David Edwin Harrell Jr., brings together essays from Harrell's colleagues, peers, and students that explore his impact and legacy in the field of American religious studies. Raised in an upper-class family in mid-twentieth-century Jacksonville, Florida, Harrell's membership in the Church of Christ helped establish his sense of self as a spiritual outsider. This early exclusion from the Christian mainstream laid a foundation for Harrell's pioneering studies of marginalized faiths, inclu

Sommario/riassunto

Shakespeare's plays were written some four hundred years ago, and while his characters are enduring, they are also alien. In grappling with the text of his plays, the modern actor must bring Shakespeare's Renaissance characters to life for a modern audience. And while it is difficult enough for twentieth-century spectators to make sense of the plays, it is also hard for modern actors to understand the Elizabethan world that created the personalities so vividly sketched in Shakespeare's texts. This reference is a convenient and practical guide for actors faced with the task of playing Shakespeare's characters. The volume begins with an overview of Elizabethan theatrical conventions, including the training of actors. It then looks at the dramatic tradition of personification, which Shakespeare's world inherited from the medieval stage. Later chapters give special attention to how language reveals character and to the social and cultural contexts of the Renaissance. Throughout, the emphasis is on how to translate Shakespeare's text into action on the stage. While the volume contains much useful information, that information is presented to meet the special needs of theater professionals.
