Sommario/riassunto

Places with perceived high environmental quality and distinctive culture are globally attracting amenity migrants. Today this societal driving force is particularly manifest in mountain areas, and while beneficial for both the newcomers and locals, is also threatening highland ecologies and their human communities. This book describes and analyses the challenges and opportunities of amenity migration and its management, and offers related recommendations. The books chapters cover the subject through case studies at international, regional and local levels, along with overarching themes such as

Sommario/riassunto	Am 4. Juni 2021 jährt sich der Todestag des bedeutenden Philosophen, Literaturhistorikers und politischen Theoretikers Georg Lukács (1885-1971) zum 50. Mal. Wenige Monate vor seinem Tod hat Lukács unter dem Titel „Gelebtes Denken“ Notizen zu seinem Leben und Schaffen niedergeschrieben, die dann in anschließenden Gesprächen mit seinen Schülern konkretisiert und erweitert worden sind und die auch noch die heutige Leserschaft, die darin eine faszinierende Jahrhundertbiographie erkennen kann, in den Bann ziehen.
