Sommario/riassunto	Motivational science is one of the fastest-growing areas of research in social psychology, incorporating multiple perspectives from social-personality research. This volume provides students and researchers

with a comprehensive overview of major topics in social motivation. All contributors are renowned specialists in their field who provide in-depth and integrated coverage of the major empirical and theoretical contributions in their area. Social Motivation is essential reading for all social psychologists with an interest in social-motivational processes, and will al
