Sommario/riassunto

This book, based on revised papers originally delivered at the VII International Systemic Functional Workshop in Valencia in 1995, explores some of the choices open to speakers and writers for the expression of meaning in different socio-cultural contexts. Many of the papers draw their inspiration from models of language developed by Michael Halliday and in particular recent theories of variation in relation to texts and genres explored by Halliday and his followers. There is an emphasis on the interdependence and interaction of linguistic choices across sentence boundaries and speaking turns,
