## Sommario/riassunto

This edition constitutes a reprint of Niels Ege's English translation of Rasmus Rask's prize essay of 1818, which appeared as volume XXVI in the Travaux du Cercle Linguistique de Copenhagen in 1993. The prize essay was published in Danish in 1818. In contrast to other works by Rask, notably his introduction to the study of Icelandic, it was never reissued until Louis Hjelmslev published a corrected version in Danish as part of his edition of Rask's selected works. While Rask lived, a substantial part of the book was translated into German.
