Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	pt. I. The United Kingdom -- pt. II. France and continental Western Europe -- pt. III. The United States of America.
Sommario/riassunto	Urban sprawl is one of the key planning issues today. This book compares Western Europe and the USA, focusing on anti-sprawl policies. The USA is known for its settlement patterns that emphasize low-density suburban development and extreme automobile dependence, whereas European countries emphasize higher densities,

pro-transit policies and more compact urban growth. Yet, on closer inspection, the differences are not as wide as first appears. A key feature of the book is the attention given to France; its experience is little known in the English-speaking world. The book concludes that both continents can offer each other useful insights and perhaps policy guidance.
