Chronology of selected U.S. immigration- and boundary-related legislation and developments -- Appendix F. Change in number of border agents nationally, FYs 1925-2009 (chart) -- Notes -- Bibliography -- Index.
Sommario/riassunto	This is a major revision and update of Nevins' earlier classic and is an ideal text for use with undergraduate students in a wide variety of

courses on immigration, transnational issues, and the politics of race, inclusion and exclusion. Not only has the author brought his subject completely up to date, but as a "case" of increasing economic integration and liberalization along with growing immigration control, the US. / Mexico Border and its history is put in a wider global context of similar developments elsewhere--Product description.
