Nota di contenuto	pt. 1. Multi-methodological approaches to constructional and idiomatic meaning -- pt. 2. Multi-methodological approaches to language acquisition -- pt. 3. Multi-methodological approaches to the study of discourse.
Sommario/riassunto	The volume argues for the use of multi-methodological strategies in linguistic research. In its lead chapter, in addition, the thorny issue of phenomenological pluralism is explored in detail. From a usage-based perspective, the individual chapters demonstrate methodological pluralism in the investigation of meaning, language acquisition, and discourse. The chapters report on studies in which the use of corpus data is combined with other methodological tools, e.g. experimentally elicited findings, showing how introspection and the analysis of performance data go hand in hand to provide empiric

Nota di contenuto	Discourse, international relations, and international relations theory -- Friendship practices and processes -- Amicitia incipit : beginning international friendship -- The duties of international friendship -- The breakdown and dissolution of international friendship -- Conclusion.
Sommario/riassunto	In this bold new interpretation of the origins of ancient Rome's overseas empire, Dr Burton charts the impact of the psychology, language and gestures associated with the Roman concept of amicitia, or 'friendship'. The book challenges the prevailing orthodox Cold War-era realist interpretation of Roman imperialism and argues that language and ideals contributed just as much to Roman empire-building as military muscle. Using a constructivist theoretical

framework drawn from international relations, Dr Burton replaces the modern scholarly fiction of a Roman empire built on networks of foreign clients and client-states with an interpretation grounded firmly in the discursive habits of the ancient texts themselves. The results better account for the peculiar rhythms of Rome's earliest period of overseas expansion - brief periods of vigorous military and diplomatic activity, such as the rolling back of Seleucid power in Asia Minor and Greece in 192-188 BC, followed by long periods of inactivity.
