Nota di bibliografia	Includes bibliographical references (p. [221]-245) and index.
Nota di contenuto	Introduction -- Communion -- Tradition and innovation -- Presentation and participation -- Conservation and commercialization -- Donation and deduction -- Education -- Mediation -- Globalization and localization -- Revolution.
Sommario/riassunto	Cultural Democracy explores the crisis of our national cultural vitality, as access to the arts becomes increasingly mediated by a handful of corporations and the narrow tastes of wealthy elites. Graves offers the concept of cultural democracy as corrective--an idea with important historic and contemporary validation, and an alternative pathway toward ethical cultural development that is part of a global shift in values. Drawing upon a range of scholarship and illustrative anecdotes from his own experiences with cultural programs in ethnically diverse communities, Graves explains in convincing detail the dynamics of how traditional and grassroots cultures may survive and thrive--or not--and what we can do to provide them opportunities equal to those of mainstream, Eurocentric culture.
