A Simple Optimizing Planning Model 9. An Appraisal of Alternative Planning Models10. The Existence of an Optimum Savings Programme; Index
Sommario/riassunto	First published in 1964, this series of studies, compiled by the India team of Centre of International Studies at MIT, represents an important contribution to methods in planning for development, which will be of relevance to all those working in the field, irrespective of country. The results are demonstrated on examples taken from the Third Five-Year Plan and from some of the papers which underlay it.
