Sommario/riassunto	This is the first terrorism textbook based on sociological research. It adopts an innovative framework that draws together historical and modern, local and global, and social processes for a range of individuals, groups and societies. Individual behaviour and dispositions are embedded within these broader relationships and activities, allowing a more holistic account of terrorism to emerge. In addition, the shifting forms of identification and interwoven attitudes to political violence are discussed in order to explain the emergence, continuation,

and end of 'terrorist' careers.The b
