Sommario/riassunto

This book examines the impact of the COVID-19 pandemic on higher education globally, emphasizing the sector's democratic and civic mission. It explores challenges such as inequity, disrupted international mobility, and public health concerns, while presenting strategies for innovation, resilience, and sustainability in educational practices. Contributors discuss the role of universities in shaping post-pandemic recovery, addressing societal crises, and fostering democratic values. The work targets policymakers, educators, and researchers, aiming to inspire debate and action towards a more inclusive, democratic, and sustainable higher education system.
