Sommario/riassunto	Since the 1990's, the financial systems in developing and developed countries have gained in soundness, depth, and diversity, prompted in part by a series of financial sector and macroeconomic reforms aimed at fostering a market-driven economy in which finance plays a central role. Latin America has been one of the regions at the forefront of these changes and offers a good laboratory of where the challenges in financial development lie. Despite all the gains in financial development, there is still a nagging contrast between the intensity of financial sector reforms implemented over the past...
