Sommario/riassunto

This book is an unprecedented collection of 29 original essays by some of the world's most distinguished scholars of Japan. Covers a broad range of issues, including the colonial roots of anthropology in the Japanese academy; eugenics and nation building; majority and minority cultures; genders and sexualities; and fashion and food cultures. Resists stale and misleading stereotypes, by presenting new perspectives on Japanese culture and society. Makes Japanese society accessible to readers unfamiliar with the country.

Sommario/riassunto

This book aims to present key aspects of the prison-based bullying research which has taken place over the last few years. It is a field in which there has been considerably increased interest. One of the main features of this book is the recognition that much previous bullying research has been descriptive in nature, with little underlying theory to assist its development as an area of academic interest. In addressing this need this book will serve as an indispensable resource for students, academics and professionals with interests in this field. Chapters in the book address the following ar
