

1. Record Nr.	UNINA9910958921903321
Titolo	Resettling displaced people : policy and practice in India // editor Hari Mohan Mathur
Pubbl/distr/stampa	New Delhi, : Routledge, Taylor & Francis Group and Council for Social Development, 2011
ISBN	1-136-70421-3 0-203-81402-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (442 p.)
Altri autori (Persone)	MathurHari Mohan
Disciplina	307.2 362.870954
Soggetti	Forced migration - India Economic development projects - Social aspects - India Land settlement - India
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Resettling Displaced People; Copyright Page; Contents; List of Abbreviations; Foreword by Muchkund Dubey; Acknowledgements; Introduction and overview; Part I: The governance challenge; 1. Making resettlement work: Policy, planning and management: Hari Mohan Mathur; Legal framework for land acquisition; Policy guidelines on resettlement; The planning of resettlement; Strengthening management capacity; The role of NGOs; Monitoring and evaluation; Part II: Emerging issues in resettlement policy 2. Converting resettlement policy into resettlement law: a welcome initiative but no occasion for celebration yet: Ramaswamy R. Iyer Strengthening resettlement policy; Reasons for scepticism; Some progress overall, but more needs to be done; 3. Broadening the definition of 'population displacement': Geography and economics in conservation policy: Michael M. Cernea; Researching and conceptualising forced displacement; The pivotal importance of the concept of displacement; The significant redefinition: Restriction of access seen as displacement; Twin objectives in establishing protected areas

What is the content of 'forced displacement'? New policy conclusions and operational prescriptions; The economic rationale underpinning the policy change; From policy to implementation; Additional financing provided for co-management; Focused research on restricted areas and property; 4. Involuntary resettlement policy and transport projects: Gordon Appleby; Involuntary resettlement policy, its development and its objectives; Involuntary resettlement policy in the transport sector; Good practice with involuntary resettlement in the transport sector Road rehabilitation in post-conflict situations Summing-up; 5. Resettlement realities: the gulf between policy and practice: Felix Padel and Samarendra Das; Rival constructions of reality; Orissa's R&R policy; Disjunction between policy and practice; The phenomenon of displacement; Cultural genocide; Clash of ideologies; Rule of law; Suggestions for reforming resettlement; Part III: Compensation and the resettlement process; 6. Misunderstood and misused: Re-examining the compensation criterion in resettlement: Supriya Garikipati; The compensation criterion and surrounding controversy From abstract theory to applied policy Designing an incentive-compatible consultation process; The resettlement preferences; Consultation exercises for better resettlement; 7. From Narmada to Nandigram: the never ending clamour for land as the only route to resettlement: Vasudha Dhagamwar; Circumstances changed, but not ideas on resettlement; The displaced people of Orissa; The West Bengal story; Experiences overlooked; Displacement affects tribal people differently; Unsustainability of the land option; Displaced not all land-dependent 8. Reconstructing livelihoods: The CIL experience with self-employment schemes: M. P. Roy

---

Sommario/riassunto

Developmental projects have long been displacing people in large numbers every year, but it is only in recent years that the fate of those adversely affected has become an issue of widespread concern requiring urgent action. This volume is the scholarly exploration of these critical issues in a wider perspective, examining resettlement policies as well as resettlement strategies, their strengths, their weaknesses, the persisting gap between policy and its actual practice and the means to improve resettlement outcomes. This volume is well-structured into four parts: (a) Displace

2. Record Nr.	UNINA9911018950003321
Autore	Preumont Andre
Titolo	Active control of structures // Andre Preumont, Kazuto Seto
Pubbl/distr/stampa	Chichester, U.K., : John Wiley, 2008
ISBN	9786612342714 9781282342712 1282342711 9780470715703 0470715707 9780470715710 0470715715
Descrizione fisica	1 online resource (314 p.)
Altri autori (Persone)	SetoKazuto
Disciplina	624.1/71
Soggetti	Structural control (Engineering)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Active Control of Structures; Contents; About the Authors; Preface; Acknowledgements; 1 Active Damping; 1.1 Introduction; 1.1.1 Why Suppress Vibrations?; 1.1.2 How can Vibrations be Reduced?; 1.2 Structural Control; 1.3 Plant Description; 1.3.1 Error Budget; 1.4 Equations of Structural Dynamics; 1.4.1 Equation of Motion Including Seismic Excitation; 1.4.2 Modal Coordinates; 1.4.3 Support Reaction, Dynamic Mass; 1.4.4 Dynamic Flexibility Matrix; 1.5 Collocated Control System; 1.5.1 Transmission Zeros and Constrained System; 1.5.2 Nearly Collocated Control System 1.5.3 Non-Collocated Control Systems 1.6 Active Damping with Collocated System; 1.6.1 Lead Control; 1.6.2 Direct Velocity Feedback; 1.6.3 Positive Position Feedback; 1.6.4 Integral Force Feedback; 1.6.5 Duality between The Lead and IFF Controllers; 1.7 Decentralized Control with Collocated Pairs; 1.7.1 Cross-Talk; 1.7.2 Transmission Zeros (Case 1); 1.7.3 Transmission Zeros (Case 2); References; 2 Active Isolation; 2.1 Introduction; 2.2 Relaxation Isolator; 2.2.1 Electromagnetic Realization; 2.3 Sky-hook Damper; 2.4 Force Feedback; 2.5 Six-Axis Isolator; 2.5.1 Decentralized Control

2.5.2 Leg Design; 2.5.3 Model of the Isolator; 2.5.4 Six-Axis Transmissibility; 2.6 Vehicle Active Suspension; 2.6.1 Quarter-Car Model; 2.7 Semi-Active Suspension; 2.7.1 Semi-Active Devices; 2.7.2 Narrow-Band Disturbance; 2.7.3 Quarter-Car Semi-Active Suspension; References; 3 A Comparison of Passive, Active and Hybrid Control; 3.1 Introduction; 3.2 System Description; 3.3 The Dynamic Vibration Absorber; 3.3.1 Single-d.o.f. Oscillator; 3.3.2 Multiple-d.o.f. System; 3.3.3 Shear Frame Example; 3.4 Active Mass Damper; 3.5 Hybrid Control; 3.6 Shear Control; 3.7 Force Actuator, Displacement Sensor; 3.7.1 Direct Velocity Feedback; 3.7.2 First-Order Positive Position Feedback; 3.7.3 Comparison of the DVF and the PPF; 3.8 Displacement Actuator, Force Sensor; 3.8.1 Comparison of the IFF and the DVF; References; 4 Vibration Control Methods and Devices; 4.1 Introduction; 4.2 Classification of Vibration Control Methods; 4.3 Construction of Active Dynamic Absorber; 4.4 Control Devices for Wind Excitation Control in Civil Structures; 4.5 Real Towers Using the Connected Control Method; 4.6 Application of Active Dynamic Absorber for Controlling Vibration of Single-d.o.f. Systems; 4.6.1 Equations of Motion and State Equation; 4.6.2 Representation of a Non-Dimensional State Equation; 4.6.3 Control System Design; 4.6.4 Similarity Law between Dimensional and Non-dimensional System; 4.6.5 Analysis of Vibration Control Effect; 4.6.6 Experiment; 4.7 Remarks; References; 5 Reduced-Order Model for Structural Control; 5.1 Introduction; 5.2 Modeling of Distributed Structures; 5.2.1 Equation of Motion for Distributed Structures; 5.2.2 Conventional Modeling of Structures; 5.3 Spillover; 5.4 The Lumped Modeling Method; 5.4.1 A Key Idea for Deriving a Reduced-Order Model; 5.4.2 Relationship Between Physical and Modal Coordinate Systems

---

Sommario/riassunto

With Active Control of Structures, two global pioneers present the state-of-the-art in the theory, design and application of active vibration control. As the demand for high performance structural systems increases, so will the demand for information and innovation in structural vibration control; this book provides an effective treatise of the subject that will meet this requirement. The authors introduce active vibration control through the use of smart materials and structures, semi-active control devices and a variety of feedback options; they then discuss topics including methods a
