ISBN	9786612156755 9781282156753 1282156756 9789027294470 902729447X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (246 p.)
Collana	Converging evidence in language and communication research, , 1566-7774 ; ; v. 6
Classificazione	EC 3765
Disciplina	808/.00285
Soggetti	Metaphor - Data processing Linguistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Metaphor and Corpus Linguistics -- Editorial page -- Title page -- LCC data -- Dedication -- Table of contents -- Acknowledgements -- Introduction -- Metaphors in language and thought -- A "decorative" view of metaphor -- Conceptual Metaphor Theory -- Corpus linguistics -- Summary -- I. Current models of metaphor and metonymy -- 1. Conceptual Metaphor Theory and language -- Main tenets of Conceptual Metaphor Theory -- Some implications of Conceptual Metaphor Theory for language description -- Exploring linguistic metaphors as evidence for Conceptual Metaphor Theory -- Summary and conclusion -- 2. Defining metaphor -- Introduction -- Types of linguistic metaphor -- Degrees of metaphoricity: Two models -- Degrees of metaphoricity: A corpus-based classification -- Metaphor and grammar -- Metaphor and "empty" words -- Conclusion -- 3. Metaphor and metonymy -- Introduction -- Metonymy -- Combinations of metaphor and metonymy -- A cline from metaphor to metonymy -- Conclusion -- II. Current research into metaphor -- 4. Corpus research into metaphor -- Corpora and language analysis -- Issues in corpus research -- Using corpora to research metaphor --

Summary -- Note -- 5. Cognitive and psycholinguistic approaches to metaphor research -- Introduction -- Questions -- Research methodologies -- Corpus perspectives on cognitive and psycholinguistic research methodology -- Conclusion -- 6. Discourse approaches to metaphor research -- Introduction -- Questions -- Methodology -- The ideological use of metaphor -- Metaphor, meaning and the developing discourse -- A corpus perspective on discourse studies -- Conclusion -- III. The examination of corpus data -- 7. The grammar of metaphor -- Introduction -- Approaches to grammar and metaphor -- Metaphor and part of speech -- Detailed grammatical patterning -- Implications -- Conclusion. 8. Semantic relations in source and target domains -- Introduction -- Metaphorical mapping -- Corpus investigations: Plants -- Corpus investigations: Light and dark -- Summary and conclusion -- Note -- 9. Metaphor and collocation -- Introduction -- Collocation and corpus data -- Idiom -- Collocation and meaning -- Metaphorical mapping of collocates in the corpus -- Discussion -- Conclusion -- 10. Conclusion -- Introduction -- Language and metaphor -- Corpus linguistics and cognitive metaphor theory -- Further work -- References -- Index -- The series Converging Evidence in Language and Communication Research.

Sommario/riassunto

Metaphor is a topical issue across a number of disciplines, wherever researchers are concerned with how speakers and writers package and process messages. This book is addressed at readers from diverse academic backgrounds who are interested in ways of researching metaphor from different perspectives, and especially through corpus linguistics. A number of approaches to and exploitations of metaphor, including conceptual metaphor theory and cognitive approaches more generally, text and spoken discourse analysis, and CDA, are discussed, explored and critiqued using corpus data. The book also includes corpus linguistic studies of different aspects of metaphor, which investigate its linguistic and semantic properties and relate them to current theoretical views. The book demonstrates the need for naturally-occurring language data to be used in the development of metaphor theory, and shows the value of corpus data and techniques in this work.

Pipeline: Challenges Many, Progress Slow -- Chapter-8. Russia: Geopolitics in a Fluid Matrix -- Chapter-9. The US: Destination for the new Energy -- Chapter-10. The Way Forward.
Sommario/riassunto	This book analyzes energy security through the lens of oil and natural gas and explains how geopolitics and security challenges affect India's quest for energy security. It also offers insights into India's international trade and investment in the overseas oil and natural gas markets and discusses shale energy, adopting region-specific (Africa,

West Asia, Central Asia, and LAC), country-specific (Russia and the US), maritime-specific (Arctic and South China Sea), and pipeline-specific (TAPI, MBI, IPI, and RCI) approaches to analyze India's oil and natural gas trade and investment abroad. The introductory chapter examines energy perspectives in international relations and conceptualizes energy geopolitics and energy security from both international and Indian standpoints. The book also highlights the similarities and differences in the issues involved in the global oil and natural gas market, and India's approach to these, offering a roadmap for holistic and integrated energy security through oil and natural gas. Since India's energy trade and investment in the international oil and natural gas market are not free from the effects of political instability, corruption, environment crisis, militancy, terrorism, war, and geopolitical involvement and interference, the book investigates the nature and extent of the security threats and competition India faces in the oil and natural gas-producing countries while pursuing its trade and investments there. As major sources of energy, oil and natural gas are strategic assets, and energy security is one of the core areas of India's foreign policy pursuits. As such, the chapters critically assess India's energy policy and resource diplomacy, providing analyses of the issues raised, identifying the central arguments and presenting existing cooperations – with past examples where necessary. The book appeals to scholars and policymakers active in the fields of energy, political science, international relations, economics, foreign policy, peace and conflict, security and geopolitics, as well as non-experts interested in this topic. .
