William Camden and the anti-myth of Elizabeth: setting the mould?; 11. John Stow and nostalgic antiquarianism; Index

Sommario/riassunto

'This England' is a celebration of 'Englishness' in the sixteenth century, explores the growing conviction of 'Englishness' through the rapidly developing English language; the reinforcement of cultural nationalism as a result of the Protestant Reformation; the national and international situation of England at a time of acute national catastrophe; and of Queen Elizabeth 1, the last of her line, remaining unmarried, refusing to even discuss the succession to her throne. Introducing students of the period to an aspect of history largely neglected in the current vogue for histories of the Tudors
