Self-Acceptance and Hope; Appendix; References; Index; About the Author
Sommario/riassunto	Family-Focused Trauma Intervention: Using Metaphor and Play with Victims of Abuse and Neglect translates issues central to abuse and neglect recovery into metaphorical stories and family-based interventions, focusing specifically on parent-child interaction and trauma. The stories and interventions reduce troubling symptoms, address family risk and relapse potential, treat cross-generational patterns, and remediate attachment deficits. It is a book for a variety of

practitioners, including psychologists, social workers, counselors, and expressive therapists.
