

1. Record Nr.	UNINA9910959226503321
Titolo	Research methodology for social sciences // Edited by Rajat Acharyya and Nandan Bhattacharya
Pubbl/distr/stampa	Abingdon, Oxon ; ; New York, NY : , : Routledge, , 2020
ISBN	1-000-72578-2 1-000-72564-2 0-367-81034-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xvi, 268 pages) : illustrations
Collana	Contemporary issues in social science research
Classificazione	28.08
Disciplina	300.721
Soggetti	Qualitative research - Philosophy Social sciences - Methodology research qualitative analysis research method social sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Cover -- Half Title -- Series -- Title -- Copyright -- Contents -- List of figures -- List of tables -- List of contributors -- Foreword -- Editors' note -- Introduction -- Part I Epistemological issues -- 1 Methodological or epistemological issues in social research -- Part II Debates in research methods -- 2 Towards a pragmatic centre: debates on qualitative methodology -- 3 Ethnographic fieldwork: the predicaments and possibilities -- 4 Diversity in economics: an examination and defence of heterodox approach -- Part III Methods of conflict analysis and policy evaluation -- 5 Game theory: strategy design in conflict situations -- 6 Impact evaluation: a simple need and a difficult choice of methodology -- 7 Construction of different types of indices in social science research: some numerical examples -- Part IV Quantitative research methods and predictive analysis -- 8 Designing a primary survey-based research -- 9 Sampling methods: a survey -- 10 An introduction to statistical inference -- 11 Problems of endogeneity in social science research -- 12 Quantitative methods for

qualitative variables in social science: an introduction.

Sommario/riassunto

"Research Methodology for Social Sciences provides guidelines for designing and conducting evidence-based research in social sciences and interdisciplinary studies using both qualitative and quantitative data. Blending the particularity of different sub-disciplines and interdisciplinary nature of social sciences, this volume: Provides insights on epistemological issues and deliberates on debates over qualitative research methods; Covers different aspects of qualitative research techniques and evidence-based research techniques including survey design, choice of sample, construction of indices, statistical inferences, and data analysis; Discusses concepts, techniques, and tools at different stages of research beginning with design of field surveys to collect raw data and then to analyze the data using statistical and econometric methods; With illustrations, examples and a reader friendly approach, this volume will serve as a key reference material for compulsory research methodology courses at Doctoral levels across different disciplines like Economics, Sociology, Women's Studies, Education, Anthropology, Political Science, International Relations, Philosophy, History, Business Management and the like. This volume will also be indispensable for post-graduate courses dealing with quantitative techniques and data analysis"--
