| Sommario/riassunto      | This book provides a stimulating and carefully structured introduction to Lawrence's short stories. It guides the reader to a deeper critical understanding of individual stories, but it also provides model commentaries on several of their most prominent narrative techniques.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
