Meissner -- True measure of country risk / Gerardo della Paolera and Martin Grandes -- Related lending / Noel Maurer and Stephen Haber -- Sudden stops and currency drops / Luis A. V. Catao -- Establishing credibility / Sebastian Edwards -- Some economic effects of closing the economy / Gerardo Esquivel and Graciela Marquez -- Political economy of protectionism / Aurora Gomez-Galvarriato.
Sommario/riassunto	Latin America's economic performance is mediocre at best, despite

abundant natural resources and flourishing neighbors to the north. The perplexing question of how some of the wealthiest nations in the world in the nineteenth century are now the most crisis-prone has long puzzled economists and historians. The Decline of Latin American Economies examines the reality behind the struggling economies of Argentina, Chile, and Mexico. A distinguished panel of experts argues here that slow growth, rampant protectionism, and rising inflation plagued Latin America for
