Nota di contenuto	AI Policies and Laws -- Theoretical Research on AI and Rule of Law -- AI Applications in the Rule of Law -- AI-related Case Analysis (China) -- Special Reports on Development of Artificial Intelligence and Rule of Law -- The Use of AI in Law in Response to Major Epidemics -- Expert Interviews on the Development of Artificial Intelligence and Rule of Law -- Questionnaire on Legal Aspects of Artificial Intelligence. .
Sommario/riassunto	This book focuses on the development of artificial intelligence and rule of law in the current world. It covers topics such as AI strategy, policy, law, theoretical research, and practical application. Through an in-depth analysis and thorough evaluation, this book provides a more objective, fair, accurate and comprehensive report. The purpose is to lead the AI and rule of law research and create an AI and rule of law environment which is conducive to the construction of AI and rule of

law system. In particular, it aims to play an active role in promoting the establishment of legal systems, policy systems, and codes of ethics that are compatible with the innovative development of AI, thus facilitating the implementation of a new generation of AI development strategies, and ensuring the safe, reliable, controllable, healthy, and sustainable development of AI.

Sommario/riassunto

This study argues for a radically new interpretation of the origins and evolution of the ethnic Mexican community across the US. This book offers a definitive account of the interdependent histories of the US and Mexico as well as the making of the Chicano population in America. The authors link history to contemporary issues, emphasizing the overlooked significance of late 19th and 20th century US economic expansionism to Europe in the formation of the Mexican community.
