Sommario/riassunto	Fondee sur des centaines d'entretiens, cette recherche sur la perception de la couleur noire s'inscrit dans un parcours d'une grande richesse,

allant d'une vision esthetique et meme artistique, a l'emergence de reflexions autour des valeurs symboliques portees par cette couleur dans la vie de tout un chacun, conduisant le lecteur sur des terrains tres divers, sociaux, politiques, religieux ou encore linguistiques. Cet ouvrage s'interroge ainsi sur l'instauration du vivre ensemble, au-dela des tensions sociales nees d'une incapacite a comprendre l'Autre.

Sommario/riassunto

Created and used as an instrument of coercion and indoctrination, the Nazi language, Nazi-Deutsch, reveals how the Nazis ruled Germany and German-occupied Europe, fought World War II, and committed mass murder and genocide, employing language to encode and euphemize these actions. Written by two scholars specializing in socio-linguistic and historical issues of the Nazi period, this book provides a unique, extensive, meticulously researched dictionary of the language of the Third Reich. It is an important reference work for English- and German-speaking scholars, students, and teachers of the interwar years, the Nazi era, World War II, and the Holocaust. The first and only comprehensive German-English dictionary of the Third Reich language, the book provides clear, concise, expert definitions with background information. Using up-to-date research, the book provides access, in a single volume, to a specialized, charged vocabulary, including the terminology of Nazi ideology, propaganda slogans, military terms, ranks and offices, abbreviations and acronyms, euphemisms and code names, Germanized words, slang, chauvinistic and anti-Semitic vocabulary, and racist and sexist slurs. The volume is an indispensable tool for research, study, and reading about World War II and the Holocaust.
