Nota di contenuto	Immigration policy regimes : the United States in international perspective -- Policy options for regulating low-skilled immigration -- Conclusion and recommendations for Congress.
Sommario/riassunto	With 11.9 million undocumented residents in the United States and illegal entrants accounting for nearly half of the low-skilled foreign workforce, there is widespread agreement that the current U.S. immigration system is broken. Past reform agendas have emphasized strengthening border security, increasing the number of visas for foreign guest workers, and defining a path to legal residence for illegal immigrants already living in the country. When the Obama administration addresses immigration reform-as it has promised to do before 2012-should it pick up where previous reform proposals left off.
