An examination of how middle managers in health care use the competing metaphors of business and care to achieve desired outcomes; Ministering angels and the virtuous profession: Service and professional indemnity; Identity and biography; Gendered narratives of the management of residential care homes; Index</p>
Sommarrio/riassunto	<p>Drawing on sociology and social policy, this intriguing volume considers various aspects of gender and professional identity. Contributors explore the inter-relationship between managerialism, professionalism and gender identity in Britain, and examine the processes and impacts of change on those working in public sector organizations in other countries as they come under varying managerial pressures. The subject is viewed from a variety of perspectives, including feminism and post-modernism. With an international range of contributors, this important book brings together an array of</p>
