Sommario/riassunto	This book represents an approach which is intended to give readers a general insight into what translators really do and to explain the concepts and tools of the trade, bearing in mind that translation cannot be reduced to simple principles that can easily be separated from each other and thus be handled in isolation. On the whole, the book is more process- than product-centred. Translation is seen as an activity with

an intentional and a social dimension establishing links between a source-language community and a target-language community and therefore requiring a specific kind of communicat
