Sommario/riassunto	As the population of retirees between the ages of 65 and 75 continues to grow, professionals, researchers, and educators in all areas of the health care and the business sectors will require more expertise on the latest trends to make better decisions and improve systems. Contributed by nationally recognized experts, The Crown of Life: Dynamics of the Early Post-Retirement Period presents some of the most important and current decision-making research describing life

between the ages of 65 and 75. Topics cover many aspects and social issues of retirement including: Demographics; Functioning
