Sommario/riassunto	This book explores how regional political parties use Europe to advance their territorial projects in times of rapid state restructuring. It examines the ways in which decentralization and supranational integration have encouraged regional parties to pursue their strategies across multiple territorial levels. This book constitutes the first attempt to unravel the complexities of how nationalist and statewide parties manoeuvre around the twin issues of European integration and

decentralization, and exploit the shifting linkages within multi-level political systems. In a detailed comparative exam
