

1. Record Nr.	UNINA9910960744703321
Autore	Gupta Pravin Jaiprakash
Titolo	A guide to hemorrhoidal disease // Pravin Jaiprakash Gupta
Pubbl/distr/stampa	New York, : Nova Science Publishers, 2010
ISBN	1-61761-480-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (169 p.)
Collana	Advances in biology and medicine series
Disciplina	616.3/52
Soggetti	Hemorrhoids
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction and history -- Causes of hemorrhoids -- Anatomy of hemorrhoids -- Pathophysiology of hemorrhoidal disease -- Clinical presentation of hemorrhoidal disease -- Hemorrhoids presenting with complications -- Diagnosis and classification of hemorrhoids -- Conservative treatment for hemorrhoids -- Office treatment of hemorrhoids -- Surgical treatment of hemorrhoids -- Complications of hemorrhoid surgery -- Hemorrhoids in special situations -- External hemorrhoidal disease -- Frequently asked questions about hemorrhoids -- Hemorrhoids: point to ponder.
Sommario/riassunto	This book covers all aspects of this important and common disorder. Topics covered in the 18 chapters include historical background, basic anatomy and physiology, etiology and pathogenesis, presentation, diagnostic methods, conservative and office procedures, surgical treatment and complications of haemorrhoids, offering a comprehensive critical analysis of advantages and disadvantages of the recognised treatment options, covering both recent advances and traditional treatments in the field. It provides authoritative in-depth presentations of all perspectives and latest techniques available, their advantages and disadvantages. The book includes a wealth of full-colour clinical images to support the visual aspects of haemorrhoidal disease.
