Sommario/riassunto	This book is a part of the Beginner's guide series, wherein you will quickly start doing tasks with precise instructions. Then the tasks will be followed by explanation and then a challenging task or a multiple choice question about the topic just covered. Do you have a story to tell or an idea to illustrate? This book is aimed at film makers, video producers/compositors, vxf artists or 3D artists/designers like you who have no previous experience with iClone. If you have that drive inside you to entertain people via the internet on sites like YouTube or Vimeo, create a superb presentation
