

1. Record Nr.	UNINA9910961017403321
Titolo	Toward a new national weather service : future of the National Weather Service Cooperative Observer Network // National Weather Service Modernization Committee, Commission on Engineering and Technical Systems, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1998
ISBN	9786610186372 9781280186370 1280186372 9780309596893 0309596890 9780585149370 0585149372
Edizione	[1st ed.]
Descrizione fisica	1 online resource (77 p.)
Disciplina	551/.6573
Soggetti	Meteorological services - United States - Evaluation United States Climate
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 46).
Nota di contenuto	Future of the National Weather Service Cooperative Observer Network -- Copyright -- Preface -- Acknowledgments -- Contents -- Executive Summary -- 1 Overview -- DEFINITION -- A Vital Part of the National Infrastructure -- Network Configuration -- Observing Equipment -- OPERATIONAL CONTEXT -- Other Distributors of Coop Network Data -- Other Surface Weather Observing Networks -- Coop Network and the Nws Modernization -- 2 Operation and Management -- NETWORK MANAGEMENT -- Organizational Roles -- Management Structure -- TECHNICAL AND OPERATIONAL ISSUES -- Data Collection and Transmission -- Instrumentation -- Procedural Errors By Observers -- Declining Number of Sites -- Data Transmission and Local Quality Control -- Metadata -- Manual vs. Automated Observations -- Data Assimilation And Quality Control -- Data Dissemination -- MANAGEMENT ISSUES -- National Weather Service's Management

Commitment -- Effects of NWS Restructuring and Budget Reductions --
Field Management -- Site Visits -- Hiring -- Staffing -- Training --
Incentives -- Program Funding -- SYSTEM ISSUES -- Mesonets And
Regional Networks -- NOAA's National Weather System -- 3 Cooperative
Network of the Future -- IMPORTANCE OF CONSISTENCY FOR COOP
NETWORK DATA -- SPECIFICATIONS AND CHARACTERISTICS --
Network Density -- Technical Features -- Standardized Observation
Times -- Continuous Sensing -- Electronic Communication --
Technical Standards -- Role Of Human Observers -- Training --
Relationship To Mesonets -- Quality Control -- Dissemination Of Data
-- BLUEPRINT FOR UPGRADING THE COOP NETWORK -- Three-Step
Approach To Automation -- Automated Data Transmission --
Automated Data Ingest -- Additional Sensors -- Rationale For A
Gradual Transition -- Transition To New Instruments -- MODERNIZING
THE PROGRAM MANAGEMENT STRUCTURE -- Network Ownership --
Interagency Management Council.
NOAA Management Responsibilities -- Role Of NWS Cooperative
Observer Network Manager -- Local Management And Staffing --
FUNDING SUPPORT -- NEW VISION AND MISSION -- 4 Review Of The
National Weather Service Proposal -- References -- Acronyms --
Appendices -- Appendix A Survey Of State Climatologists On The
National Weather Service Cooperative Network -- Appendix B
Applications/Uses Of Weather And Climate Data -- Agriculture/Life
Sciences -- Appendix C Cooperative Observer Systems In Other
Countries -- Reference -- Appendix D Summary Of The Canadian
Network Rationalization Plan -- Reference -- Appendix E
Recommendations From The National Weather Service Modernization
Committee's 1992 Report -- Principles Of Observing And Managing
Data For Climate And Climate Change Research -- Recommendation 1
-- Recommendation 2 -- Recommendation 3 -- Recommendation 4 --
Recommendation 5 -- Recommendation 6 -- Recommendation 7 --
Recommendation 8 -- Recommendation 9 -- Cooperative Weather
Observer Program -- Recommendation 1 -- Recommendation 2 --
Recommendation 3 -- Recommendation 4 -- Recommendation 5 --
Recommendation 6 -- Recommendation 7 -- Recommendation 8 --
Reference -- Appendix F Guidelines and Principles for Climate
Monitoring -- Reference -- Appendix G National Weather Service Plan
For Modernizing The Cooperative Observer Network And Technical
Specifications -- A.1.5 Timeliness Of Data Availability -- A.2 System
Requirements -- A.2.1 Mandatory Design Requirements -- A.2.2
Desirable Design Considerations.

2. Record Nr.	UNINA9911009995003321
Autore	Serio, Massimo <1982- >
Titolo	Lineamenti di bioetica e public health : la salute come bene comune / Massimo Serio ; prefazione di Mariapia Garavaglia
Pubbl/distr/stampa	Soveria Mannelli, : Rubbettino, c2024
ISBN	978-88-498-8298-8
Descrizione fisica	188 p. ; 23 cm
Collana	Università
Disciplina	174.2
Locazione	FGBC
Collocazione	XI N 850
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
