Sommario/riassunto	"In recent years historians in many different parts of the world have sought to transnationalize and globalize their perspectives on the past. Despite all these efforts to gain new global historical visions, however, the debates surrounding this movement have remained rather provincial in scope. Global History, Globally addresses this lacuna by surveying the state of global history in different world regions. Divided into three distinct but tightly interweaved sections, the book's chapters provide regional surveys of the practice of global history on all continents, review some of the research in four core fields of global history and consider a number of problems that global historians have contended with in their work. The authors hail from various world

regions and are themselves leading global historians. Collectively, they provide an unprecedented survey of what today is the most dynamic field in the discipline of history. As one of the first books to systematically discuss the international dimensions of global historical scholarship and address a wealth of questions emanating from them, *Global History, Globally* is a must-read book for all students and scholars of global history."--Bloomsbury Publishing.
