Nota di contenuto	Introduction -- 1. A Matter of Life -- 2. What University? A question of Politics -- 3. Space and Time -- 4. Originary Truth -- 5. Technology -- 6. Which God? -- 7. Art as Redemption? -- Conclusion -- Appendices
Sommario/riassunto	Martin Heidegger's work is pivotal in the history of modern European philosophy. The New Heidegger presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. The New Heidegger takes a thematic approach to Heidegger's work, covering not only the seminal Being and Time, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher
