Nota di contenuto	Intro -- Contents -- I. Introduction -- II. Principles, Objectives, and Operational Considerations -- III. Need for Change -- IV. The Revised De Facto Classification System -- Tables -- 1. Shares of Classifications Using the 1998 and 2009 Methodologies -- Figures -- 1. Development of the Residual Category, 1975-2008 -- 2. Decision Process for Revised Classification Methodology -- Appendices -- I. Revised Classification System-Definitions of Categories -- II. The Evolution of the IMF's Classification Taxonomies.
Sommario/riassunto	Since 1998, the staff of the International Monetary Fund has published a classification of countries' de facto exchange rate arrangements. Experience in operating this classification system has highlighted a need for changes. The present paper provides information on revisions to the system in early 2009. The changes are expected to allow for greater consistency and objectivity of classifications across countries, expedite the classification process, conserve resources, and improve transparency.
